1.10) Please write below aspects of this teacher's class/seminar teaching that you think could be improved and/or aspects that were particularly helpful.

- Federico has been an outstanding TA for this entire course
  - Extremely competent, great at communication, very good at explaining complicated questions; very available for questions, great timing
  - Federico always asked questions about what would change in the models if some exogenous variable changed / took a specific value, which was incredible helpful in understanding the models' mechanisms. THANKS!!
- Excellent explanations.  
He puts in a lot of effort, which is very useful.

-PROVIDE SPECIAL CLASSES ON PAST EXAMS

-GET IN CONTACT WITH PROFESSORS TO ENSURE FEASIBLE PROBLEM SETS

~~Compare~~

Compare to other TAs in EC441 and EC443,

Federico is really good TA.

Without him nobody would have understood anything in EC552. Very, very helpful!!

The best TA we've had this year.

- (+) clear explanations
- (+) helpful answers to questions

Federico is the only very good teacher we had in this year (in my opinion). He is always well-prepared, provides useful insights and clarifies all the doubts we have.

- We see that Federico prepares the classes and put himself in our shoes and it pays off: very clear, interesting and stimulating;
- Best class teacher of the year

HE ALWAYS ~~NEVER~~ ADDS INTUITION TO THE PURE MATH, WHICH I FIND QUITE HELPFUL.

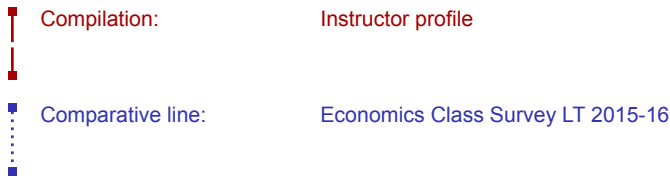

~~BECAUSE HE GIVES DEEP EXPLANATION OF IT~~

Really clear explanations of the exercises, great office hours, good communication via email. Federico has great grasp of the material and is doing a great job passing this on. Shame it was so much math and so little economics but that's not his fault! Cheers.

Federico is by far the best class teacher I have had at CSE. He presents the material clearly, and does his best to make the material intellectually stimulating and to involve the class. He tries to go beyond specific questions and provide a structure for answering questions of a particular type which is helpful. Solutions are generally detailed, though some could be more so.

~~The more is~~  
The classes would be even more productive if we could get a chance to go through the solutions before the class.
